PROJECT REPORT 2021-22

DEPARTMENT OF EDUCATION

As a part of the academic syllabus of 5th semester honours students of Department of Education, are assigned with practical projects where the Students collected relevant data (Bi-variate educational data) from their neighborhood (minimum sample size must be 50) with the objective of

a) Describing the nature and characteristics of the two distributions b) comparing two distributions and finding association between two sets of data by applying the following Method :

i) Tabulation of data ii) Determination of central tendencies and variability (standard deviation)

iii) Graphical Representation- Bar graph, Frequency Polygon, Cumulative frequency graph.

iv) Determination of the type of association between two sets of data by drawing scatter diagram.

As this is a part of the compulsory academic syllabus of CC 12 paper needed for their partial fulfillment of B.A. 3yr Honours degree as per Calcutta University syllabus, all the students mentioned in Annexure I successfully completed the practical project with in time and appeared for the final exam.
